

HDX

Bus routes come in all shapes and sizes. Short and hilly, long and bumpy or all of the above. The Saf-T-Liner® HDX from Thomas Built Buses was built to handle them all. We keep the driver comfortable with features like the standard tilt and telescoping steering wheel and optional adjustable pedals, while air conditioning, coach-style seating and heavy-duty shock absorbers make the ride a perfectly pleasant one for up to 90 passengers. Of course, safety is most important to everyone, which is why the HDX meets or exceeds FMVSS. Our unwavering commitment to the needs of every passenger, driver and customer has made Thomas Built a leader for over 90 years. And with one of the most extensive dealer networks in the industry, there's always support nearby when you need it.
